I am the captain of a ship and I am a farmer's wife

I get up very early and milk my goats. I talk to them. My goats are very intelligent. With the goatmilk my husband makes cheese. Then I wake up my children and prepare their breakfast. They eat Cornflakes with goat-milk. We live next to the lake. I go to my big boat. I open the gate and the people come on the boat. Also my children come on the ship.

Now I am a ship-captain and drive by ship to Lucerne. There the people get off the ship. My children go to school.

After this I buy food at the market and drive back home. I fasten the ship on the shore. Now I help my husband to cut the hay.
